

Through ward budgets, Westminster City Council is reimbursing the cost of the diffusion tubes used.

May 2025

Air quality (NO₂) in St John's Wood

unit of measure of amount shown in discs: $\mu\text{g}/\text{m}^3$

Legal limit: **40** $\mu\text{g}/\text{m}^3$ (annual average)

WHO limit: **10** $\mu\text{g}/\text{m}^3$ (annual average)

Informal guide to health risk:
(if concentration persists for 12 months)

Raw data, not adjusted for bias

Seasonal effects contribute to concentrations being greater during winter than in summer. The outer ring of the discs shown indicates the category of the annual average concentration.
